DSA

Coroutines

Place Api

Payment Gateway

Push Notification

REST API

Room Database

Firebase Database

Mongo DB

FCM

SDKs

Multithreading

Git

Bitbucket

Flutter

Dart

Google Play store

## PROJECTS

### FitneX App

- <https://play.google.com/store/apps/details?id=com.yogaa.google.mlkit.vision.yogaa&hl=en&gl=US>.
- Fitnex App is a useful solution for people who want to practice yoga and exercise but cannot or do not want to attend an in-person class.
- Using the Fitnex App can make it easy to practice yoga and exercise anywhere and at any time.
- The FitneX App focuses on fitness as well as losing weight, gaining weight, managing stress, etc.
- The FitneX app will correct people who are doing wrong exercises and give instructions to do right.
- You can see the progress of your exercise, like how much you have set the target and how much you have achieved day by day, as well as your past performance history .

### Grocer Bazaar App

- This is an e-commerce application in which users can buy products through online payment and cash on delivery.
- Users can login using their mobile number, Facebook, or Google app, and select their location either automatically or manually by typing.
- Users can send voice messages if they want to change the product delivery time.
- The real-time tracking feature is available in this app.

### Attendance App

- The main aim of this project is to mark Attendance of Employees at specific locations from the company.
- For Marking the attendance first we have to Sign In , So This Application will allow you to Sing In at 100 m distance from the company as well as Sing Out .

## ACTIVITIES AND ACHIEVEMENTS

Gate Qualified-

Got 92% marks in "E-QUIZ ON COMPUTER FUNDAMENTAL" which is conducted by Engg College Bikaner.
